# CAMBRIDGE ONLINE TEACHER DEVELOPMENT

Asociación Chilena de Neuroaprendizaje, Cambridge University Press and Cambridge English welcome you to the Teacher Online Development Programme.

The present online module provides a comprehensive teacher development programme which can be drawn on to meet teachers' needs in a flexible and accessible way.

## KEY FACTS:

- Interactive format: the online course contains - input, interactive exercises, tasks for the classroom and review sections.
- Content is aimed at teachers with a B2 Level of English or above.
- A progress tracker gives you an overview of your own progression, or allows your institution to see how teachers are progressing.

## REASONS TO CHOOSE:

- Flexible: Choose the best time and place to study.
- Convenient: you follow the course wherever and whenever is best for you, with up to 4 months to complete.
- Easy to access: on our Learning Management System.
- An additional 4-episode module on Educational Neuroscience has been added in order for you to complete the 40-hour programme
- For the CPD module you complete, you get a Certificate of Completion signed by both Cambridge University Press and Cambridge English.

## PROGRAMME BRIEF DESCRIPTION

Build your knowledge of the CLIL Approach and understand how the theory relates to classroom practice. Develop your ability to integrate content and language effectively when teaching.

## SUITABLE FOR

This programme is ideal if

- You are planning (or required) to teach other subjects through English.
- You just want to learn more about the CLIL approach..

## YOU SHOULD ALREADY HAVE

- B2 level English or higher.
- Learners that you are currently teaching (recommended but not essential)
- This programme is appropriate for teachers with any level of experience.

## GENERAL OBJECTIVE OF THE PROGRAMME

‘CLIL’ stands for content and language integrated learning. It’s an approach to teaching in which subjects are taught in a second language – in this case, English. After focusing on the principles behind CLIL, the course moves on to look at effective practises for teaching school subjects through English, explaining how to plan, teach and assess in a CLIL context. By learning to relate the theory with practice, you’ll be able to effectively deliver the learning outcomes you need for your class.

## SPECIFIC OBJECTIVES OF THE PROGRAMME

By taking this course, you will learn:

- The theory behind CLIL and why it’s used.
- How this applies to classroom practice.
- How to teach, support and assess learning with a CLIL approach.
- How to reflect on this and its implications for your teaching.
